

Is Employee Development on your mind?

You're not alone. Over 1/3 of HR leaders find their talent sourcing strategies insufficient to find the skills they need to meet workforce demands.

Employee Development Employee Retention

49%

Gartner reported drop in employee willingness to change behaviors to support organizational goals between '16-'22

Organizations continue to face significant challenges to control costs, address skills gaps, and manage the unpredictable economic environment in an increasingly tight labor market. And HR leaders are right in the middle of it all.

They want to grow

- 98% of employees will stay in their jobs longer if they have opportunities for growth

They'll leave if they can't

- 41% of resignees cite lack of career development as their primary reason for leaving

Doing nothing will cost you

- 9 months' salary is the average cost to replace an employee

Shifting Mindsets

In a Global Coaching Study, ICF found various improvement in worklife behaviors:

80% improvement in self-confidence

72% improvement in communications skills

70% improvement in performance
